

# Your toilet has been twinned!

**Good sanitation and clean drinking water are fundamental to communities. Yet 1 in 3 people worldwide – don't have access to somewhere safe, private or hygienic to go to the toilet. The human and economic impact of this is enormous.**

Every minute a child dies from diarrhoeal diseases and 60% of all rural diseases are caused by poor hygiene and sanitation.

Investing in sanitation is one of the most cost-effective forms of aid. For every £1 spent on water and sanitation programmes, £8 is returned through saved time, reduced health costs and increased productivity.

Your twinned toilet is helping to flush away poverty!  
Please hang your certificate with pride.
